

Nuvo S

Speech Generating Device

Meet the Nuvo S

The Nuvo S is a medical device that allows users with a variety of speech impairments have access to verbal communication. It supports a vast selection of symbol and text based iOS AAC software. The Nuvo S supports multiple language and voice options.

Highly Portable & Durable

The Nuvo S is encased in a water resistant, military-grade shockproof case that is designed to withstand repeated drops. It houses a rotating hand strap and multi-angle kickstand. Weighing 1.5 pounds, the Nuvo S is highly portable.

Multiple Access Options

The Nuvo S can be accessed via multiple methods of input including direct touch, assistive touch, single switch, multiple switches, and auto-scanning. Custom made keyguards are also available.

Mounting

Multiple mounting options are available including lightweight and robust systems for wheelchairs, beds, desks, tables, and more.
