

Inspire Lite

Speech Generating Device

Meet the Inspire Lite

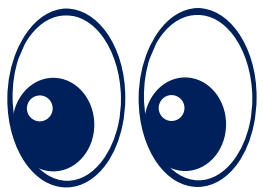

The Inspire Lite is a medical device that allows users with a variety of speech impairments have access to verbal communication. It utilizes a Windows Operating System with an advanced symbol and text based communication software called Grid 3.

Highly Portable & Durable

The Inspire Lite is one of the toughest dedicated speech generating device on the market. The shock-absorbing rubber bumpers and a rigid shell are engineered to fit securely to provide a superior protection. Sealed rubber ports offer additional protection from dust and water. Weighing 2.2 pounds with the case, the Inspire Lite is highly portable.

Multiple Access Options

The Inspire Lite can be accessed via multiple methods of input including direct touch, assistive touch, single switch, multiple switches, and head mouse.

Mounting

Multiple mounting options are available including lightweight and robust systems for wheelchairs, beds, desks, tables, and more.
